

Australian Made & Australian Owned

Gunwash Thinner

Production Description

Solvent blend used to clean spray lines, guns, and other equipment. Universal products suitable for clean-up for single pack and two pack products. Also, can be used as thinner where specified by other products.

Areas of Application

Gunwash is not formulated to be used as a paint thinner. It is recommended primarily for use as a spray gun cleaner. However, when necessary, can be used as thinner for most of the lacquers.

Technical Data

Appearance	Low viscosity, clear to slight yellow liquid
Specific Gravity	0.85-0.86
Boiling Range	80-110 °C
Thinning Recommendations	Refer individual product data sheet for specific recommendations.
Packs available	4 litre, 20 litre & 60 litres

Flammability & Transport

- Highly flammable, Dangerous Goods Class 3.2.
- Keep away from heat and flame, eliminate any source of ignition.
- Soak all used cloths and rags immediately in water to prevent self-ignition.
- Ensure container is upright with lid secure.
- Ensure the container is secured in the vehicle for transport.

Safety & Precautions

Refer to SDS for detail instructions.

Disclaimer: In lieu of all warranties expressed or implied, the seller's and manufacturer's only obligation shall be to replace such quantity of the product proved to be defective. Neither the seller nor manufacturer shall be liable for any injury, loss, damage, direct or consequential, arising out of the use of or inability to use this product. Since the use and application of this product is beyond the control of the seller and the manufacturer, the purchaser and user assume all risk and liability whatsoever, in connection with this product therewith.
